

Fee! Fi! Fo! Fum!

Home Learning Challenges

Wolfie finds some magic beans! Can you see the beans on this page? Can you count them? How many magic beans are there?

What would you like to find above the clouds at the top of the beanstalk? Draw or paint a picture of what you would like to find.

In the story, Wolfie is very hungry and is trying to find something to eat. What is your favourite food? Maybe you could make some with a grown-up. You could bring in a recipe or a drawing of your favourite food to share with the group.

The magic beans grew into a giant beanstalk! Ask a grown-up to help you plant some seeds. Plant some seeds in some soil in a small pot. You could try planting some cress or bean seeds. Give them some water and put them somewhere sunny. Watch what happens! You could bring in a photo or drawing of your plants to share with the group.
